Recognising the signs and symptoms of abuse

Officers are required to recognise signs and symptoms of abuse.

There are 4 main areas of abuse:

Physical Abuse

Emotional Abuse

Sexual Abuse

Neglect (intentional and unintentional)

These are explained below.

Possible signs of abuse include:

- Unexplained or suspicious injuries such as bruising cuts or burns, particularly if situated on a part of the body not normally prone to such injuries or the explanation of the cause of the injury is does not seem right.
- You observe or the child discloses abuse, or describes what appears to be an abusive act.
- Someone else (child or adult) expresses concern about the welfare of another child.
- Unexplained change in behaviour such as withdrawal or sudden outbursts of temper.

- Inappropriate sexual awareness or sexually explicit behaviour.
- Distrust of adults, particularly those with whom a close relationship would normally be expected.
- Difficulty in making friends.
- Eating disorders, depression, self-harm or suicide attempts.

Recognising Abuse

PHYSICAL ABUSE: May involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating, or otherwise causing physical harm to a child. Physical harm may also be caused when a parent/carer fabricates the symptoms of, or deliberately induces illness in a child.

EMOTIONAL ABUSE: Is the persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to children that they are worthless or unloved, inadequate, or valued only in so far as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or "making fun" of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond the child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying, (including cyber-bullying) causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, though it may occur alone.

SEXUAL ABUSE: Involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may include non-contact activities, such as involving children in looking at, or in the production of, sexual online images, watching sexual activities, or encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

NEGLECT: Is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Advice- Stages of Acting on a Concern

Stage 1

- The Officer present shall initially talk to a child/young person about what you are observing. It is okay to ask questions, for example: "I've noticed that you don't appear yourself today, is everything okay? But never use leading questions
- Listen carefully to what the young person has to say and take it seriously. Act at all times towards the child as if you believe what they are saying.
- It is not the responsibility of groups to investigate incidences of suspected child abuse but to gather information and refer only. Since you are not investigating, do not take photographs of injuries or video the child.
- Always explain to children and young people that any information they have given will have to be shared with others, if this indicates they and or other children are at risk of harm;
- Notify the SO for safeguarding
- Record what was said as soon as possible after any disclosure; the person who receives the allegation or has the concern should complete a pro-forma and ensure it is signed and dated.
- Respect confidentiality and file documents securely;

Stage 2

- The Officer should take immediate action in accordance with the Crowborough Chess Club CPA Reporting Procedure (hereafter referred to as the Procedure), if there is a suspicion that a child has been abused or likely to be abused.
- Once you have made contact with Children and Young Peoples Service they should within 24 hours of receiving your referral:
 - discuss reasons for the concern with the Officer
 - involve and discuss with appropriate professionals/agencies
 - establish if a criminal offence has been committed and involve the police
 - take into consideration, based on available information, whether there are concerns about the child's health or developments.
 - look at a further enquiry, assessment or take immediate action if necessary
 - consider timescales and how best to undertake it.

NB Parents / carers will need to be informed about any referral to Single Point of Access Service unless to do so would place the child at an increased risk of harm.

Sometimes concerns about a child may not be about abuse. You may be concerned that a child or family need some help in making sure all the child's needs are met to address a particular problem. Examples of this might be where a child is suffering because of poverty or has a disability and needs extra help. In these instances you can get them help from the East Sussex Single Point of Access Services who can use Common Assessment Framework (CAF) as a means of support.
